

HELL NO!

WOSO WON'T GO!

MANAGEMENT PROPOSES TO CUT

Weekend Only Scheduling Option

FROM CONTRACT!

W Management has proposed to keep the WOSO schedule separate from the bargaining contract. This means you would not be protected by your union rights if you work WOSO.

O WOSO schedule is just as important as any other shift. Residents deserve round the clock care, and you deserve a good contract for the care that you provide.

S Just like the proposed N.A.R. pay cuts that management suggested, management continues to chip away at your jobs. These are jobs you depend on to be able to live, raise a family, to have fun. Don't let them take that away from you.

O ***Are you going to do something to prevent this?*** Or will you let management push you around? ***You are the Union!***
