Push for Retirement Security Now!

We've never come this close to a comprehensive reform of our pension plans that will ensure a dignified retirement for state public workers for decades to come.

The state Senate already has passed the Omnibus Retirement Bill by a vote of 66-0. It's got strong bipartisan support: The Legislative Commission on Pensions and Retirement that created the bill passed it unanimously, with both Republicans and Democrats approving it.

AFSCME Council 5 and our fellow unions are in full support. The plan will require shared sacrifice from everyone - including the state, employer, employee and retiree. But it will fully fund our pension plans within 30 years, and immediately cut unfunded pension liability by \$3.4 billion!

House Speaker Kurt Daudt and other Republicans leaders in the House are the only ones standing in the way of a secure retirement for 500,000 state public workers and retirees. They've had it stuck in House committee since Feb. 26.

The pension plan is a smart deal that took three years of hard work by everyone. Waiting will just cost more. Let's do our best to get the House to do the right thing for workers, our retirees and our state.

ASK YOUR HOUSE MEMBER AND DAUDT TO:

- Pass HF 3053 as introduced, the same pension bill the Senate already passed unanimously.
- Make sure they budget for the entire pension package, an essential part of making this work.
