

Dear Workshop Participant,

**Thank you** for attending last week's **Digital Tools** workshops! We appreciate your time and participation.

Please take a few minutes to complete our short survey to help plan member training for next year. If you've already completed it, **thank you!** Your feedback shows how your local is using digital tools right now and what support would be most useful going forward. It also helps us track progress and ensure we're meeting your needs.

**Take the Digital Tools  
Survey »**

This **union-branded email** gives you a first-hand look at how digital tools - emails, surveys and text messages - can help keep your members informed, engaged, and ready to take action on important issues.

We'll also send a **text message** to accompany this message. If you didn't receive it, please call the **Member Action Center (MAC)** at **(651) 450-4990** to update your cell phone number.

**Thank you for sharing your input! Your feedback helps us improve and serve you better.** As always, feel free to reach out anytime with your questions or requests.

In solidarity,

**Max Hall**, External Relations and Planning Director

**Diana Holmes**, Communications Coordinator
