

Hi everyone,

We need your input on two important issues that directly impact your work. **Please take a few minutes to complete both forms below by Noon on Friday, May 1.**

### [Swivl Recordings Survey](#)

A proposal would allow coaches, FSS, or supervisors to use Swivl to capture teachers' work. Teachers were not included in this decision.

This is your chance to speak up. If a majority of educators express concerns, the union will take action to address and push back on this proposal.

### [2026-2027 Preschool Extended Day Survey](#)

The district plans to move to a 5-day, 6-hour preschool schedule. While this model aims to improve consistency and support for children, it also changes how you do your work every day.

We need to hear from you. Share what's working, what concerns you, and what needs to change. Your feedback will shape what the union raises with management and help push for improvements.

**Take a few minutes now to complete both forms.**

When we speak together, we build the power to shape these decisions.

If you have questions or run into issues, reach out anytime.

Thank you for speaking up.

In solidarity,

**Lori Schmit, President**
