

Hello Local Union Officers,

At the fall AFSCME Council 5 Convention, delegates passed a resolution supporting participation in **May Day 2028**. As we begin planning for this historic day of worker action, the May Day 2028 Committee is asking every local to help us understand how you and your members may be able to participate.

We know every workplace is different. Some locals may be able to participate in workplace actions, rallies, or other activities, while others, including members with no-strike provisions, may need to show solidarity in different ways. **Every action matters, and every local has a role to play.**

Please take a few minutes to complete our short survey. Your responses will help the committee:

- Understand your local's interest in participating.
- Identify what types of actions your members could support.
- Learn what resources or assistance your local may need.
- Develop meaningful ways for locals with contractual or legal limitations, such as no-strike units, to participate in solidarity.

[Click here to complete the survey](#)

This is just the beginning of our planning, and your feedback will help shape a strong, united effort leading up to May Day 2028.

Thank you for taking the time to share your local's perspective. Together, we can build a powerful demonstration of worker solidarity across Minnesota.

In solidarity,

May Day 2028 Committee
AFSCME Council 5
